Dear Treasurer:

This letter is prompted by the Commission's preliminary review of the report(s) referenced above. This notice requests information essential to full public disclosure of your federal election campaign finances. **Failure to adequately respond by the response date noted above could result in an audit or enforcement action.** Additional information is needed for the following 1 item(s):

- Your Amended Reports disclose a substantial increase in certain categories of receipts, disbursements and debts owed to one or more vendors from the amounts disclosed on your original reports (see attached).

The Commission notes the Miscellaneous Electronic Submission (Form 99), received 10/14/11 that states, in part: "The Committee engages in ongoing audits of its FEC filings. As a result it discovered that certain Schedule B Line 21B disbursements had not appeared in its reports at all and others had been double-posted. Almost all of these errors occurred in 2005-2007 and were the result of the Committee's then cumbersome and error-prone petty cash reporting system,(1) various miscoded invoices, and other miscellaneous errors. The errors were corrected in the Committee's accounting system but were not corrected by amended FEC filings. As a result, the cash balances reported in the Committee's FEC reports were inaccurate. Ideally, the Committee would have filed all of its amended reports prior to filing its Mid-Year 2011 report in which the audited and accurate cash balance as of the beginning and end of that reporting period was shown. The Committee was unable to accomplish this because many individual vendor addresses had changed from previous years and the Committee's accounting system reflected only the current address. The amendment process required researching and hand editing the amended reports to reflect accurate vendor address
